Record Supplement.

We issue to-day, in addition to our regular Sunday morning paper, a supplement to the Record, containing editorial and other matter.

THE TRUE ISSUES.

The Review calls our attention to some expressions of the New York Tribune derogatory to the Democratic party, and asks us to peruse them. We have read them long since, both in the Tribune and in the column of garbled extracts published in the Alta of San Francisco, as also in the New York administration papers, and now, we ask, what have they to do with the question before the people? Who does not know that Mr. Greeley has been the life-long opponent of the Democracy? Who does not know that during Mr. Greeley's extended career as an editor that he has written many bitter and harsh expressions against the Democracy? All know this; all know that at the present moment Mr. Greeley is no more a Democrat than he was ten years ago. But what has that to do with the present issue? Nothing in the world. The momentous question that the American people are called upon to determine is not a question of party or previous political combinations. It is a higher, a purer and more ennobling one. The people are required to determine whether the government of the country shall be placed in the hands of honest men, who will administer it according to the Constitution, or continue it in the charge of men who are dead to every principle of honor and honesty, who deride the Constitution as an obsolete relic of a past age, and who desire to substitute a centralized imperialism for the republican form of government so wisely devised by the framers of the Constitution. These are the issues, and none other. Party politics have nothing to do with these. The great party of reform has noble and patriotic principles to guide it, that are immeasurably above the petty strife and the ignoble purposes of a mere partisan organization. By the great and mighty host of reformers, men from all sections and parties are welcomed as brothers without inquiring what they said or did at other times. The only question asked is whether they will heartily join in the effort to restore the government of the Great Republic to the pristine purity which was the proudest boast of its citizens and reflected the greatest lustre upon those who enabled it to reach that proud pre-eminence. No heed is paid to other considerations. The need of the times, above all other things, is that the dictates of honor and honesty shall be the ruling principles of those in whose hands are placed the government of the country, and until this is acknowledged and accomplished all other questions sink into insignificance. Feeling this in their utmost hearts the Democrats, with unparalleled magnanimity, forbore to press the minor considerations of partisanship, but with a patriotism unexampled in the history of party organizations consented to support a man who had been a life-long opponent, but who from his acknowledged honesty, ability and spotless character they thought would be best able to carry out those reforms for which they were unitedly contending and deemed so vitally essential. Of course no one expects that Grant, his administration or his employees can or ever will approve a sentiment so unselfish and so purely patriotic. But there are millions of American citizens who do and will show the faith that is in them at the election in November, which will be as fatal to Grant as the Ides of March were to Caesar.

WHAT ON?—A correspondent of the San Francisco Chronicle says, that Grant and Wilson will evidently carry Lincoln county! We respectfully inquire what on? The tactics that the Administration are pursuing in Pennsylvania and Indiana will not do in Nevada. There are no hordes of negroes to be imported from a neighboring State. In Nevada the Administration will have to meet the issue, without the use of fraud, intimidation or bayonets. It will have to stand on its own merits, and as a consequence, will have nothing to stand on.

ENGLISH GRAMMAR.—A gentleman in San Francisco has recently opened a school in that city for the purpose of teaching English grammar. The San Francisco Figaro thereupon unkindly advises the editors of the several journals of the Bay City to take lessons forthwith.

We learn from an exchange that Judge Sawyer formerly District Attorney of this county, is at Reno, suffering from an attack of insanity. His condition is such that his close confinement is necessary.

The Indians pillaged to the extent of \$30,000 or \$40,000 and retired.

JOAQUIN MILLER's poems have made a good deal of noise in the literary world, but from his wife's account, if he made a good poet he was not a success as a husband. His wife has been lecturing in San Francisco on his career generally, and his marital deficiency particularly, and the way she does up the gentle Joaquin is not calculated to make him happy. The moral of all this is, that men, when they feel a poetic turn, had better not marry, or, if they do, they will do well to keep on good terms with their better halves; otherwise the latter may get bumptious and betray the secrets of the prison house, as Mrs. Miller is doing.

THE WAY OF THE INDIANA RADICALS.—Solomon said there were three or four things that were very difficult to elucidate, but the way of the Radicals in Hoosierdom may be easily divined and succinctly described by the single term of "fraudulent." The Indianapolis Sentinel is engaged in exposing their former tricks, among which printing ballots on tissue paper, folding them together and voting twenty or thirty at a time was a pet expedient. Governor Morton, one of Grant's footmen, was of course the chief cook of this gratifying arrangement.

The "Escaped Nun" is lecturing in Virginia city. What a pity it was that the woman won't quit escaping and allow the public to escape from being bored with so many escapades.
